Job Description – (Cloud Analogy)

About Cloud Analogy

Established in **2015**, **Cloud Analogy** is a **Salesforce Summit Partner** delivering solutions across **Salesforce, CRM, AI, Cloud, Data, Integration, and Custom Application Development**.

Powered by the **AIONOS ecosystem**, backed by **InterGlobe Enterprises and Assago Group**, Cloud Analogy is part of a broader ecosystem that includes **IndiGo**.

Key Leadership:

- **Rahul Bhatia** — ***Co-Founder, IndiGo | Group MD, Interglobal*** — Built and scaled IndiGo into India's leading airline over 30+ years.
- **C. P. Gurnani** — ***Global IT Leader*** | ***Former CEO & MD,*** *Tech Mahindra* — A globally recognized technology leader with extensive experience in IT and digital transformation.
- **Ajay Dubedi** — ***CEO, Cloud Analogy*** — Driving technology, innovation, and digital transformation.

Through this ecosystem, employees gain exposure to **AI, Salesforce, Cloud, Data, Automation, and emerging technologies**, along with opportunities to work on **real-world projects and global client engagements**.

Website: Salesforce Consulting & CRM Services | Cloud Analogy

Role Overview

We are looking for **enthusiastic and motivated Software Trainees** who are passionate about technology and eager to build a career in software development.

As a Software Trainee, you will gain **hands-on experience in coding, testing, debugging, and application development**. You will work with experienced professionals, receive mentorship, and contribute to real-world projects while developing strong technical skills.

Key Responsibilities

- Assist in the design, development, and implementation of software applications.
- Write clean, efficient, and well-structured code.
- Participate in code reviews and incorporate feedback.
- Collaborate with teams to understand requirements and deliver solutions.
- Test, debug, and troubleshoot applications.
- Support the development and maintenance of software applications.

- Stay updated with new technologies and industry trends.
- Contribute ideas and solutions to improve application performance and quality.

Skills & Requirements

- Basic knowledge of programming languages such as **Java, C++, Python, or JavaScript**.
- Understanding of **HTML, CSS, and basic web development concepts**.
- Basic knowledge of **SQL and databases**.
- Familiarity with **Agile/Scrum methodologies** is an advantage.
- Strong problem-solving and analytical skills.
- Passion for learning technology and software development.
- Ability to work independently as well as in a team.
- Good communication and interpersonal skills.
- Willingness to learn, adapt, and take ownership of assigned tasks.

Training & Evaluation

- The selected candidates will undergo a structured **training and learning program** after joining.
- During the first **3 months of training**, candidates will be required to appear for **3 mandatory brainstorming/technical assessments**.
- Candidates must successfully clear these assessments to continue their employment with **Cloud Analogy**.
- The training program is designed to strengthen technical knowledge, problem-solving ability, and practical development skills.
- **Ownership & Impact:** Opportunity to contribute from the beginning and make a meaningful impact.

Travel & Accommodation

The training program will be conducted in **Kurukshetra**. To support candidates during the training period, **Cloud Analogy will arrange accommodation along with food**.

The accommodation and food expenses will be shared equally between **Cloud Analogy and the selected candidates**:

- **50% of the total accommodation + food cost** will be covered by **Cloud Analogy**.

- The remaining **50% will be contributed by the selected candidate**, and this amount will be **deducted from the candidate's salary**.

Example:

If the total monthly accommodation and food expense for one candidate is **₹6,000**:

Contribution	**Amount**
Cloud Analogy – 50%	₹3,000
Candidate – 50%	₹3,000
Total Cost	**₹6,000**

So, the candidate will bear only **₹3,000 per month**, which will be deducted from their salary, while **Cloud Analogy will cover the remaining ₹3,000**.

Why Join Cloud Analogy?

- **Career Growth:** Learn, perform, and grow in a fast-paced technology environment.
- **Future-Ready Skills:** Gain exposure to Salesforce, Cloud, AI, Data, and emerging technologies.
- **Global Exposure:** Work with experienced teams and international clients.
- **Real-World Experience:** Get hands-on experience with live projects and practical challenges.
- **Learning Culture:** Continuous learning, mentorship, and professional development.
